## ELEMENTS OF THOUGHT IN CONTEXT

DISCUSSION OF EXAMPLES

#### EXAMPLE 1: PROBLEM AND PURPOSE

## **Problem**

- Uncontrolled pollution caused by disposed batteries in the context of Indonesia
- Question form:
  - How do we improve the recycling rates of lithiuin batteries in Indonesia?

## <u>Purpose</u>

- To provide a solution that solves the problem
  - A smart recycling system for disposed batteries

#### **EXAMPLE 2: CONCEPTS AND INFORMATION**

## **Concepts**

- Concepts that make the solution an engineering one
  - Robotics, machine learning, internet of things

### **Information**

- Key details pertaining to the concepts at hand:
  - Training AI through reinforcement learning and human demonstration through image processing
  - Scanning for Structure Prediction and Material Identification
  - Disassembling based on the loaded battery structure

### EXAMPLE 3: ASSUMPTIONS AND IMPLICATIONS

## **Assumptions**

- Residuals are safely disposed
- Monitoring and control systems to ensure consistent water purification

## **Implication**

■ Impact on the global market pertaining to water treatment technologies

## Citations and References

# **Loudness Level**

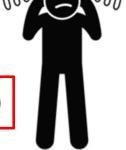

Noisy background at bus stops?

Cannot hear bus arrival announcement?

#### EXAMPLE 4: IN-TEXT CITATIONS AND REFERENCES

### Use APA style

#### **In-text Citations**

■ These are typically in the format of (Author's Last Name, Year).

#### References

- This should be on a new slide at the end of your presentation, and include the author's last name, a comma, first initials, the publication year in parentheses, the title in sentence case, the journal title in title case and italicized, and the volume number also in italics.
- The issue number (if available) follows in parentheses, not italicized, and then the page range. For books, include the location and publisher.
